

EDEN

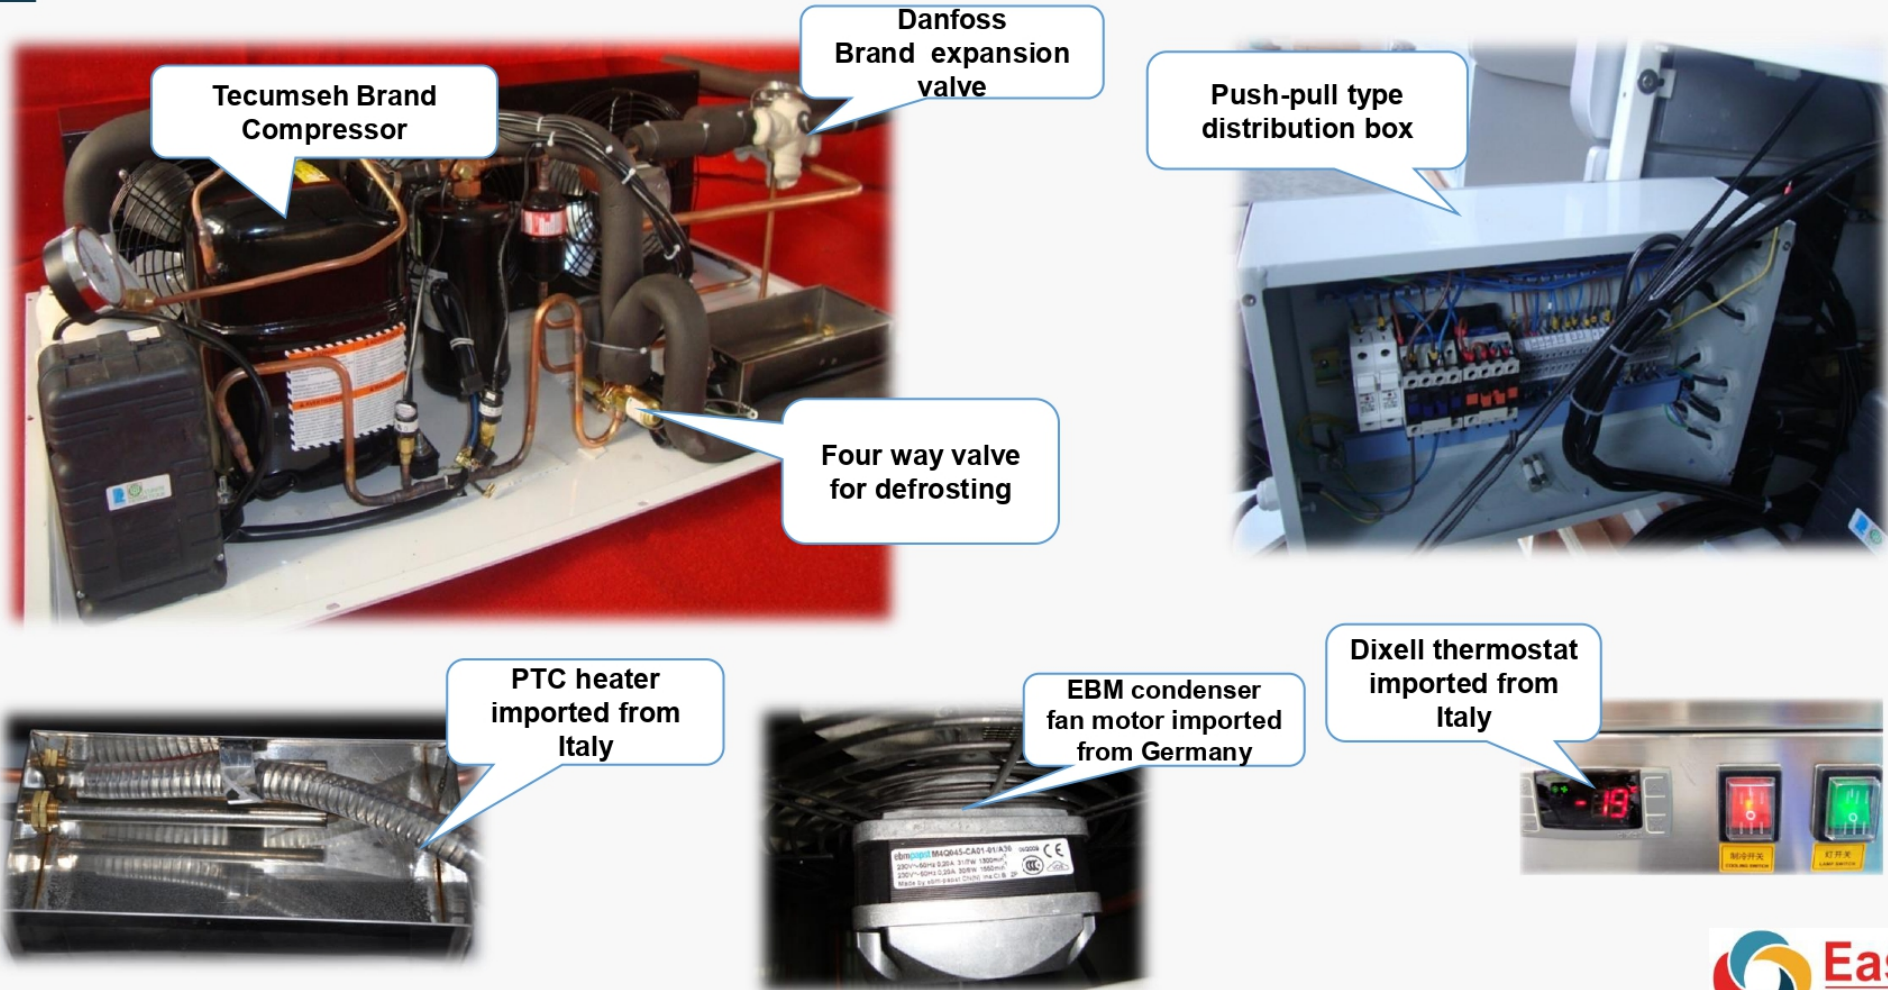

FEATURE OF EDEN

Full view of the products, small space occupied, large store space.

1. EDEN has different sizes: EDEN 0.9mt - 1.0mt - 1.2mt - 1.5mt - 1.8mt – 20mt.
2. EDEN showcase has a straight, double, safety front glass with heating element to avoid any problem of moisture.
3. The front glass can be an opening glass for cleaning.
4. The showcase with three shelves plus the bottom provides a large space to show the cakes inside the display. And the shelves component is made from aluminum.
5. The sliding door on the back of the showcase, can automatically close.
6. Standard LED lamp
7. All the panels are painted steel and the customer can choose the color he likes. And we can logo on front panel according to customer's requirement.
8. Showcase is with wheel and feet together. This allows the customer to be able to fix the showcase on the ground with feet, or move comfortably with the use of the wheels.
9. The showcase can be single packed otherwise the showcase can be packed separately and you can increase the quantity of cabinet inside the container. Each showcase will has 5 boxes.
